Commissioners:

Between gas infrastructure and two brand new solar installations, of which one is the largest in the state, Dominion Energy has invested nearly \$1 billion in South Carolina in the few years they been doing business here. I want to see more of this and think that their record shows they will move the state forward.

Industrial rates are high and the debacle over the failed nuclear project is not attractive to new businesses who might otherwise consider South Carolina for business development. The merger between SCANA and Dominion Energy would help bring closure, a plan, and some certainty to the state moving forward. We need this certainty and path forward to attract new business.

I support the combination of SCANA and Dominion Energy because I believe South Carolina needs a new partner to help us grow our state.
